

# The 21<sup>st</sup> Congress of the International Society of Craniofacial Surgery

## Invitation

Dear Dr. \_\_\_\_\_,

The 21st Congress of the International Society of Craniofacial Surgery (ISCFS 2025), organized by the International Society of Craniofacial Surgery (ISCFS) and hosted by the Shanghai Ninth People's Hospital affiliated with Shanghai Jiao Tong University School of Medicine, will convene at the Shanghai Jing An Shangri-La Hotel from October 27 to 30, 2025.

Established in June 1983 in Montreal, Canada, the ISCFS stands as the preeminent international academic organization in craniofacial surgery. The Society holds its biennial conference across rotating continents to disseminate cutting-edge research and technological advancements in the field. Scientific program will highlight pioneering developments, including molecular biology studies on craniofacial growth and development, minimally invasive treatment modalities for craniofacial anomalies (e.g., Artificial intelligence, Robotic surgery, distraction osteogenesis, endoscopic techniques, and computer-assisted navigation systems), and interdisciplinary innovations.

As a premier global event, the biennial ISCFS Congress will assemble over 600 distinguished professionals spanning plastic surgery, oral and maxillofacial surgery, neurosurgery, orthodontics, otolaryngology, and related disciplines worldwide.

We warmly welcome you to join us in October in Shanghai.

Qingfeng LI, MD

ISCFS 2025 Congress Co- President

Xudong Wang, MD

ISCFS 2025 Congress Co-President

Xiongzhen Mu, MD

ISCFS President (2023-2025)
